Hillsdale EDP Receives Financial Support from Local Business

South Central Michigan – The Economic Development Partnership of Hillsdale County is continuing to move forward as they receive support from the community and local businesses. At a recent EDP Board meeting Eric Macy of Nonik Technologies presented a check for \$1,000 to show his support of the EDP and the positive direction he feels they are moving.

“Economic Development is the most important thing to accomplish in Hillsdale County. I see the EDP as the lead organization for this task. I am providing them this money to help fund their objectives,” Macy said.

Charlene Page, Director of the EDP, along with Reb Turner, Director of the Hillsdale Industrial Development Commission, and Maxine Vanlerberg, Chair of the EDP Board, were all encouraged by the financial support given by Nonik.

“The EDP appreciates the confidence Eric has expressed with this donation. We are inspired by the support and we will use our resources to accomplish Hillsdale County’s economic development objectives,” said Page.

The Economic Development Partnership of Hillsdale County meets monthly and the board meetings are always open to the public. The next meeting will take place on Thursday, April 3rd at 7:30 a.m. at the Hillsdale Intermediate School District.
